

## Environmental Management and Reduction of CO<sub>2</sub> Emissions

Through environmental management based on three corporate visions,  
**We aim to contribute to a world in which people,  
 now and in the future, can fulfill their hopes and dreams  
 while enjoying safe, secure, and prosperous lives.**

We envision a world in which people, now and in the future, can fulfill their hopes and dreams while enjoying safe, secure, and prosperous lives. In realizing that vision, we assume the important responsibility of passing on to future generations a healthy global environment in which all forms of life can thrive. We wholeheartedly acknowledge this obligation and are moving forward with concrete initiatives that align with the Six Pledges of KOBELCO Men and Women. In addition, we have established the Six Initiatives for Environmental Management and are practicing environmental management accordingly.

The KOBELCO Group has been and will continue to utilize its individuality and technologies and care for the environment in all aspects while taking on the challenge of resolving social issues including those facing the global environment.

### Basic Environmental Management Policy

As a leading environmental corporate group, the KOBELCO Group will fulfill its social responsibilities as described in this policy, improve its environmental capabilities, and enhance its corporate value.

### Six Pledges of KOBELCO Men and Women and Six Initiatives for Environmental Management

Based on its Basic Environmental Management Policy, the KOBELCO Group has identified the following initiatives for environmental management that align with the Six Pledges of KOBELCO Men and Women, which embody its standards of conduct.

Six Pledges of KOBELCO Men and Women	Six Initiatives for Environmental Management	
1 Heightened Sense of Ethics and Professionalism	Comprehensive risk management procedures	In addition to thorough compliance with environmental laws and regulations, properly implement environmental management by identifying environmental risks in business activities and striving to mitigate these risks.
2 Contribution to the Society by Providing Superior Products and Services	Contributing to the environment through technologies, products, and services	Contribute to the environment by providing environmentally friendly technologies, products, and services.
3 Establishing a Comfortable but Challenging Work Environment	Promoting environmental initiatives with full employee participation	Initiatives are taken to foster a workplace culture where all employees participate in environmental education and study to ensure that they always conduct themselves by taking the environment into consideration, and eco-office activities are undertaken to create work environments that conserve energy and are conducive to work.
4 Living in Harmony with Local Community	Coexisting and cooperating with society	Through forest preservation activities and the KOBELCO Forest Fairy Tale Prize, we engage in activities to contribute to the environment in each region and contribute to local communities by cleaning up areas near business locations.
5 Contribution to a Sustainable Environment	Environmentally friendly manufacturing	We take a comprehensive approach to environmentally friendly manufacturing, including reducing environmental load, preventing global warming, and promoting resource recycling.
6 Respect for Each Stakeholder	Disclosure of environmental information	Activities related to environmental management are accurately conveyed to stakeholders through the disclosure of environmental information and facilitation of communication with local communities and customers.
